

U.S. ARMY RESERVE OFFICERS' TRAINING CORPS

Major Curriculum

The ROTC Program is divided into two parts - the Basic Course and the Advanced Course. The Basic Course (MS I and MS II) consists of 100- and 200-level Military Science classes and is designed primarily for freshman and sophomore students. Students do not incur any military obligation for participating in the Basic Course. The Advanced Course (MS III and MS IV) consists of 300- and 400-level Military Science classes and is reserved for junior, senior and graduate students. The Advanced Course enrollment requires approval of the Professor of Military Science. Upon contracting, students incur a military obligation and begin receiving a monthly stipend of \$300 to \$500 (depending on MS level) in addition to any scholarship benefits.

The Military Science curriculum can be taken in conjunction with any of the four-year university degree programs and may be applied toward graduation requirements as electives. Additionally, Advanced Course completion is a recognized academic minor in Military Science and Leadership. Students who attain a high standard of academic and military achievement will be given the opportunity to accept an active duty commission with beginning salary of approximately \$43,000 per year.
